1 Word segmentation and recognition for web document framework

Chi-Hung Chi, Chen Ding, Andrew Lim

November 1999 **Proceedings of the eighth international conference on Information and knowledge management**

Full text available: pdf(1.26 MB) Additional Information: full citation, abstract, references, index terms

It is observed that a better approach to Web information understanding is to base on its document framework, which is mainly consisted of (i) the title and the URL name of the page, (ii) the titles and the URL names of the Web pages that it points to, (iii) the alternative information source for the embedded Web objects, and (iv) its linkage to other Web pages of the same document. Investigation reveals that a high percentage of words inside the document framework are "compound words& ...
